

family **BLOCKS**

Free
project

fa 25

Difficulty Rating- Easy Medium Difficult

supplies:

- 6 Wood Blocks
- Ultra Flat Black Krylon Spray Paint
- 3" Papyrus Alphabet stencil
- 6 Oyster Cups
- Ivory Ceramcoat Paint
- Foam Brush
- Expandable Drill Bit

Directions:

1. Begin by drilling a 2 1/4" hole in the top of each block using an expandable drill bit.
2. Paint two coat of Ivory paint on each block, making sure to let the first coat completely dry before adding the second.
3. After your paint has dried completely spray one thin coat of Ultra Flat Black Krylon paint on each block. The layering of the paint on and spray on will give you a distressed effect on your block. If you desire a more weathered look use sandpaper to distress the corners of each block.
4. Using the Papyrus Alphabet stencil, stencil the letters for family on each block using your foam brush and Ivory paint.
5. Each of your Oyster cups should fit into the holes cut in the top of the block. You can finish it off by putting votive candles or tea lights.
